

Beaulieu Safari (Small Scale Event)

Company Name	Your Company or Organisation	Date	Date of your choice
Contact Name	Your Name	Participants	6 – 20 Approx
Email	Your Email	Telephone	Your Number
Outline /Aims & Objectives	A fun based teambuilding experience, designed to encourage co-operation, communication and increase personal performance. Participants will enjoy exploring and amazing nature reserve, full of historical interest and wildlife. Local lunch options ensure all are well fed so focus remains on activity and improving skills. Our events are client centred, ensuring we meet your values and offer a sound investment of time and money.		

Welcome & introduction - Meet at Bailey's Hard on Beaulieu Estate - Briefing on the day's structure and objectives over tea & coffee. Kitting up ready for a day in the outdoors and preparing for the first activities.

Morning activities – The event starts off with a problem solving activity, to get the group moving and thinking together. This prepares them perfectly for moving into the Canadian canoes. These boats are very stable, so individuals feel relaxed and safe in the company of our expert staff. The few skills are developed, giving the group the skills they need to navigate downstream with a few challenges along the way.

A short journey leads quickly to the Historic village of Buckler's Hard, where the team will enjoy finding out about the local history and perhaps completing a short quiz. Then after another land based challenge, lunch is earned and well deserved.

Ongoing reviews ensure that learning opportunities are maximised and understood.

Lunch & details – Option of Lunch provided at the The Master Builders House Hotel.

Afternoon activities – The safari continues with a short canoe up to a secluded riverside location. Here a number of challenges await the team, designed to complement the events overall objectives and your business requirements. From building ballistas, to navigating spiders webs, team tasks offer metaphorical experiences, easily related to daily work based solutions.

After some insightful discussions, the group can then either get back on the water, or now perhaps enjoy a different perspective by walking back up the riverside. Along the way scavenger hunts and nature quizzes keep interest up and perhaps even add an additional competitive element, if that happened to be of value to you. Our job is to make your day fun, insightful an excellent value for money.

Review & End of day activities. Perhaps the most important part of the day! This is where the team bring ideas together, potentially leading to profound implications for the work place. Depending on your objectives this can be subtle or overt, focused to maximise usefulness.

Cost From £75 + VAT per person based on numbers & requirements.

Additional costs Please consider the additional optional event costs. For example: Lunch options, evening BBQ, meeting rooms or other services / support. You'll find that we can help with most things, so you can relax and enjoy your event!
